Rent, Lease or Upgrade — Competitive Quotes on Top Brands

Rent or Lease by the Day, Week or Month

Take advantage of our extensive inventory of infusion pumps to meet your in-home and alternative site infusion care. Our infusion equipment ships patient-ready, meeting manufacturer specifications and, most importantly, your need for an agile fleet for patient care.

- Eliminates obsolescence of older owned pumps
- Short- & long-term rentals, day, week or month
- Monthly fixed-rate rental
- Replacement pumps
- Competitive market-rate pricing
- Next day shipping

Pump Buyback – Earn Money Toward Upgrades

InfuSystem will buy your obsolete infusion pumps, turning your unused inventory into capital you can use toward upgraded pump models. Our team of experts will evaluate your unwanted infusion pumps and provide you the best value for your equipment.

Infusion Pump Financing

- Flexible financing for your infusion therapy fleet
- No down payment or up-front costs
- Own your pumps in as few as 13 months

High-Quality and Competitively Priced Disposable Products

InfuSystem offers high-quality and competitively priced disposable products for infusion therapy health care providers. Our team of highly trained experts will help you select the administration sets and other supplies for specific infusion devices, as well as other products for the care and safety of your patients.
