

BIAKŌS™ ANTIMICROBIAL SKIN
AND WOUND CLEANSING
SOLUTIONS

RAPIDLY ELIMINATES BIOFILM MICROBES

The ingredients in **BIAKŌS** Antimicrobial Skin & Wound Cleanser and Irrigation Solution eliminate microbes so wounds can heal.

***PHMB**
Antimicrobial

***EDTAs**
Chelators

***Vicinal Diols**
Humectant

Poloxamer 407
Surfactant

*Synergistic Ingredients

Safely Disrupt Biofilm

BIAKŌS Antimicrobial Skin & Wound Cleanser and Irrigation Solution are intended for mechanical cleansing and removal of debris, dirt and foreign materials, including microorganisms, from wounds, such as:

- Stage I-IV pressure ulcers
- Diabetic foot ulcers
- Post-surgical wounds
- First- and second-degree burns
- Grafted and donor sites

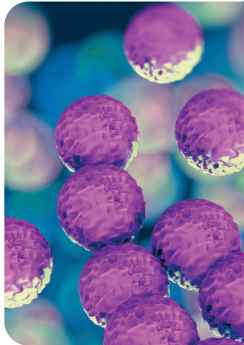

BIAKÖS Is Effective Against*:

Gram-negative bacteria

- *Acinetobacter baumannii*
- Carbapenem-resistant *Escherichia coli* (CRE)
- *Enterobacter cloacae*
- *Escherichia coli*
- *Klebsiella pneumoniae*
- *Proteus mirabilis*
- *Pseudomonas aeruginosa*
- *Serratia marcescens*

Gram-positive bacteria

- *Clostridium difficile*
- *Enterococcus faecalis*
- Methicillin-resistant *Staphylococcus aureus* (MRSA)
- *Staphylococcus aureus*
- *Staphylococcus epidermidis*
- Vancomycin-resistant *Enterococcus faecalis* (VREF)

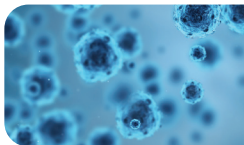

Fungi

- *Candida albicans*
- *Candida auris*
- *Trichosporon asahii*

Spores

- *Bacillus cereus*
- *Clostridium difficile*

Viruses

- Human coronavirus
- SARS-CoV-2

*Kill rate testing in solution; Data on File

BIAKÖS Works Synergistically

The patented technology and ingredients in BIAKÖS work to:

Eliminate...

planktonic, immature and mature biofilms.

Attack...

Gram-negative bacteria, Gram-positive bacteria, fungi, spores and viruses.

Support...

normal wound-healing pH.

Remove...

odor-producing microbes.

Create...

a safe environment conducive to healing.

Make Synergy Your Strategy

- Safe and effective on skin, and acute and chronic wounds
- Synergistic functions of the ingredients provide a powerful yet gentle solution, while eliminating microbes
- Non-cytotoxic, non-irritating, non-sensitizing
- Formulated with pH of 5.5, within the range of normal skin
- Available in a squeeze bottle, trigger spray, flip cap or puncture cap for easy applications, including NPWTi-d or pulsed lavage
